

EDDY IQ METER PRODUCT SHEET

IQ-DN20C-V2.0

The Eddy IQ Meter, utilizing cellular and Wi-Fi to provide Automatic Meter Reading (AMR) and Advanced Metering Infrastructure (AMI). Making it easier for your utility to accurately measure flow, detect leaks and bill your customers for water consumption.

WIRELESS ENVIRONMENT

- Wi-Fi
- Cellular
- LoRa (in development)

BATTERY / POWER

- Built-in rechargeable lithium-ion battery for continuous meter readings
- External battery-backup power supply providing additional 48-72 hours of functionality during power outage
- Auto-switching 100-240V 50/60- Hz ~ 0.5A AC/DC adapter

OPERATING PRESSURE

- 0 - 120 psi

DIMENSIONS

- 190mm x 82mm x 101mm (7.5" x 3.25" x 4")

WEIGHT

- 0.9kg (32oz)

KEY BENEFITS

- **Automatic Shut-off**
 - Programmable minor leak shut-off
 - Programmable major leak shut-off
- **Leak Detection**
 - Major leak and minor leak distinction, detection and notification
- **Water Temperature Monitoring**
 - Identify frozen pipe or abnormal thermal conditions

TECHNICAL FEATURES

- **Reading Interval**
 - Real-time with hourly reports
- **Key Readings**
 - Volumetric flow
 - Temperature
 - Pressure (optional)
- **Accuracy**
 - 0.1 litres / minute
 - No accuracy loss over time
 - No pressure loss over time
